## EXPERIENCE

**407 ETR | View Project** ([407etr.com/en/mobile-app.html](https://407etr.com/en/mobile-app.html))

Woodbridge, ON

**Agile Software Developer**

May 2021 – Present

- 407ETR Mobile App
  - Designing a script to migrate 70,000 app users in database to new entity-relationship model
  - Leading design and development of automated UI testing on iOS and Android platforms as a part of continuous integration through Jenkins pipeline
  - Developing a feature to enhance in-app trip filtering for users by adding tags to customer trips
  - Leveraging knowledge of Node.js, AWS (Lambda, DynamoDB, API Gateway, CloudFormation, Cognito)

**407 ETR | View Project** ([mansar.io/projects/SmartClient.pdf](https://mansar.io/projects/SmartClient.pdf))

Woodbridge, ON

**Agile Software Developer Intern**

May 2019 – Sept. 2020

- GIS Solution for Asset Management (SmartClient)
  - Implemented stored procedures in SQL for front facing application to execute and display data
  - Reduced load time by 113 sec. from identifying bottlenecks using SQL Profiler and adding caching
  - Developed Camel routes on ESB to process messages received from subscribed topics
  - Designed a Spring Boot email notification microservice to notify patrollers of work orders
  - Developed a web app for contractors to manage assets outside of 407ETR private network
  - Leveraged knowledge of Java, Angular, SQL, Microservices, Full Stack Development, Enterprise Service Bus (ESB), Apache (Camel, ActiveMQ, Maven)
- Enterprise CRM Solution Built on Salesforce Platform
  - Designed workflows for customer service to manage customer billing and inquiries
  - Leveraged knowledge of JavaScript, HTML, SFDC, Customer Relationship Management (CRM)

---

## EDUCATION

**University of Toronto**

**Honours Bachelor Of Science Computer Science**

Sept. 2016 – May 2021
